

Product Information:

AMF L Shaped Wall Angle is the perimeter member for ceiling metal framework. This is fixed to the wall with appropriate anchors

Application: Ceiling & Wall Liner Systems

Standard Compliance: ASTM C645

Coating: Z 150, Z180 & Z275: ASTM A653

Steel Grade G300

Min. Yield Strength: 300 Mpa

Min. Tensile Strength: 340 Mpa

Material Galvanized Steel

perimeter member for ceiling metal framework. This is fixed to the wall.

System Application

Ceiling System

Component Description

	Thickness (mm)	Width (mm)	Length (mm)	Packing
Specification				
Coating : Z180/Z275 Zinc	0.45 - 0.9	25x25	3000	10
Steel Grad : CS-A,B
