

Product Information:

AMF Recommended Threaded Rod, Nut & washer are designed to be used in high tension due to being relatively long rods and being threaded. They are used as a ceiling suspension by being fixed to hard point on one end such as soffit of concrete slab/beam or steel structure with appropriate fasteners and ceiling frame on the other.

Product Data:

- Drywall Product : Threaded Rod with Suitable Nut & Washer
- Drywall System : Applicable for Threaded Rod Ceiling System
- Coating : Zinc Plated
- Thread Type : Fine Thread
- Steel Grade : G43A
- Min. Yield Strength : 210 mPa
- Min. Tensile Strength : 320 mPa
- Material : Mild Steel

Product Data:

Description	Diameter (mm)	Length (mm)	Weight (kg/m)
Threaded Rod M6	M6	2000 / 3000	0.30
Threaded Rod M8	M8	2000 / 3000	0.32
